PROFESSIONAL SUMMARY

Electrical and Electronic Engineering graduate with experience in cloud infrastructure, automation, DevOps, and systems reliability. Built and supported production systems across AWS and Azure, improved uptime to 99.9%+, and reduced delivery inefficiencies through CI/CD and automation. Analytical problem-solver with experience working across teams, mentoring others, and delivering practical results in fast-changing environments.

EDUCATION

Landmark University, Nigeria

BEng, Electrical and Electronic Engineering (First Class Honours) | 2019 - 2024

GPA: 4.82/5.0

Relevant Coursework: Computer Networks and Communications, Control Systems Engineering, Digital Signal Processing, Data Structures and Algorithms, Microprocessors and Embedded Systems

EXPERIENCE

Enterprise Cloud Solutions Engineer, Heunets

November 2025 - January 2026 - Supported enterprise modernization initiatives with identity-focused and Zero Trust-aligned cloud configurations - Implemented Microsoft 365 and Dynamics 365 operational improvements to strengthen reliability and compliance readiness

Cloud and DevOps/QA Solutions Engineer, Heunets

June 2025 - November 2025 - Supported migration from DigitalOcean/GitHub to Azure DevOps and helped implement cloud-native delivery workflows - Contributed to CI/CD modernization that improved release speed and service stability - Assisted automation efforts that reduced repetitive operational workload by about 40%

DevOps Engineer, Toraaah

September 2024 - May 2025 - Built and operated scalable infrastructure supporting 100+ concurrent users and peak traffic surges - Implemented observability with Prometheus and Grafana, helping reduce downtime through early detection and alerting

DevOps Engineer and Protocol Developer, TheBuidl Blockchain Research Centre

March 2024 - Present - Contributed to blockchain infrastructure research and tool development for the StarkNet ecosystem - Deployed and operated cloud workloads with high availability and cost-aware resource scaling

DevOps and Programming Instructor, CoLab Innovation Hub

February 2025 - December 2025 - Delivered Python programming training to Nigerian Defence Academy cadets with emphasis on practical problem-solving - Facilitated Linux and DevOps workshops on Docker, Kubernetes, Terraform, CI/CD, and Git workflows - Mentored junior engineers through structured review cycles, improving deployment confidence and engineering discipline - Supported development of internal tools that reduced onboarding time and improved team productivity

TECHNICAL SKILLS

- Cloud and Infrastructure: AWS, Azure, GCP, Linux, Terraform, Docker, Kubernetes
- DevOps and Delivery: CI/CD pipelines, GitHub Actions, Azure DevOps, monitoring and alerting
- Programming and Scripting: Python, Go, JavaScript/TypeScript, Bash
- Strengths: problem analysis, systems thinking, troubleshooting, documentation, teamwork

CERTIFICATIONS

- Microsoft Certified: Azure Developer Associate (2025)
- Microsoft Certified: Azure AI Fundamentals (2025)
- KCNA: Kubernetes and Cloud Native Associate

LEADERSHIP AND COMMUNITY

- Served as General Secretary, Landmark University Electrical Engineering Students Association (LUEESA)
- Mentored junior engineers and supported knowledge-sharing across engineering teams
- Active contributor in cloud-native and developer communities
